### FOLLOWING CRAZY SNAKE

MILITIA HAVE NOT AS YET CAUGHT REDSKIN AND HIS BAND.

### HAVE RETREATED TO NATURAL FORTRESS

Hemmed in, Here They Will Make Their Last Stand, Whether With Bullets or Words Is Unknown As Yet.

Henryetta, Ok., March 30 .- In the absence of news this morning from the militia that is pursuing Crazy Snake and his followers in the hills southwest of here, it is believed that the soldiers have not yet come up with the Indians in any force. Up to 8:30 o'clock this morning no intelligence had been received to indicate that the Indians had either surrendered or that the militia had engaged them in battle. With the old chieftain and a large portion of his band of Indians, half breeds and negroes apparently trapped in the North Canadian bottoms, more than 300 Oklahoma militiamen, deputies, cowboys and farmers hurried forward at dawn today to join those already on guard to crush or capture the belligerents. The Indians are in a timbered stronghold, on all sides of which are ranged a dense growth of underbrush, flanked by great trees, forming an ambuscade beautiful enough to suit almost any Indian. Into this natural fortress Crazy Snake and his band crept when the pursuing soldiers got too near for comfort, prepared to make their last stand. Whether this stand will be a diplomatic contest over terms of surrender or an argument with builets, the soldiers did not know when they took up the 'arch, but they and the officers are prepared for either alter-

### ALL ACTRESSES SHOULD WED

So Says Kathryn Osterman, Who Appears in Sedalia Tonight.

"Actresses should marry. should all other women. There, I am separating women of the stage into a class by themselves, as different from other women, just the thing I object o having other people do. But in this case the separation comes easily. It has been said for so many years that the stage women should not marry, because it hurts business,

This is the emphatic statement made by Kathryn Osterman in an interview on marriage. Continuing, Miss Osterman said:

"Home is the principal thing. We all need homes. They are a part of our lives which we cannot well do without. And aithough the actress may have a home without a husband, she is likelier to possess both than

"I believe there is no woman on earth and no class of women that appreciate home and husband more than an actress. Her life is necessarily one of too much hotel, too much travel and too much artificiality. She needs the influence of the ome. The actress who is m and has a home looks upon the world with more charitable and loving

Miss Osterman will be seen at the Sedalia theatre tonight in "The Night of the Play," the performance being a testimonial to Roy Barker.

#### DREADFUL DISEASE IS CURED BY CUTICURA

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it, although we did not know it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried sevremedies but without avail. Se ing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. tee Meets.

Washington, March 30 .-- A meeting was held Monday at the office of the secretary of commerce and labor by members of the executive committee of the National Council of Commerce. This is the most important meeting since the council was organized, and many matters vital to American trade abroad were discussed.

It is known that President Taft is interested in the work of the council, and he will be asked to arrange meetings of various heads of departments and members of the executive council, with an object of better acquainting the department secretaries with the work of the national council.

Mr. Straus said a few days ago that his interest in the organization would continue, though he is no longer a member of the president's official

It was through his efforts that the council was organized last year, and since its organization hundreds of presidents of boards of trade and business men from all sections of the country have lecome members. Systems have been worked out by

## HIGHER PRICES FOR ICE

SEASON'S YIELD SAID TO BE 40 PER CENT BELOW NORMAL IN NEW YORK.

#### SINCE 1890 HAS NOT BEEN SO POOR YEAR

Generally Five or Six Weeks of Cutting On the Hudson River, But Only That Many Days the Winter Just Passed.

New York, March 30.-Not since 1890 has there been so poor a season for gathering ice of good quality, and not since January of the present year has there been a favorable opportunity to secure this product except in sections to the north of us. Those who improved that early opportunity did well, but many were unprepared for it and have been disappointed in their reasonable expectation that other chances would follow.

The New York city companies, especially, are making very poor mouths, preparatory to marking up prices to an almost unprecedented figure if the consumers will stand the terms that they are now discussing.

The Hudson river cut is declared very unsatisfactory. Its yield is 40 per cent less than usual and the quality inferior. Five or six weeks of cutting are common on that immense source of supply. This year there have been hardly as many days. In years of fatness it is the part of reasonable business foresignt to provide a rseerve as protection against an occasional year of shortage.

A shortage is all that present conditions amount to. It is still very far from a famine and every purveyor to the wants of the public in this re spect should have his houses well stocked.

OF THE HOME COMING CELEBRA TION IN HONOR OF CITY'S 50TH BIRTHDAY.

### SOME IN FAVOR OF THE FOURTH OF JULY

Fair, the First Week in October, Would Be Better-Resolution Adopted Last Night.

Last night's meeting of the general committee which is behind the Home-Coming movement was well attended. Much progress has been made, as was shown in the reports of the various sub-commitees.

The report of the committee on history was of unusual interest, and on motion the same was adopted, with the request that the city papers

Just as the meeting was about to adjourn the question of dates for the festival was again brought up, some advocating the week of the Fourth of July, while others believed the week of our state fair, the first week in October, would be a better time.

After much discussion the meeting adjourned to meet again next Friday evening, when the question of dates

## RUMBLINGS OF THE RAIL

GREAT THINGS PREDICTED ON SOURI PACIFIC.

#### COACH CAB AND CABOOSE ITEMS

atters of Interest Picked Up From Various Sources For the Benefit of Democrat-Sentinel

Here's some "dope" from the Boonville Call of Monday afternoon. The Missouri Pacific is to spend a few thousands of dollars in riprapping along the Missouri river, most likely, to keep the tracks from being washed into the "Big Muddy" with every little freshet, and out of this mole hill the Call makes a mountain. Here's what the Call says:

"At a meeting of the various road and section overseers of the Missouri Pacific railroad at Sedalia, Friday afternoon, the were instructed to make all the preliminary arrangements for rebuilding the road from Jefferson City to Kansas City. The meeting was a joint session of the promoters and employes.

"Roadmaster Stewart, of this city, was present at the meeting, and was given authority to employ all the men and teams that he could and pi them to work. W. J. Cochran, a prom inent contractor of Boonville, now has

"The roadbed is to be widened, graded and ballasted from the two points mentioned. Mr. Stewart has now about forty teams and a number of men at work, and expects to in crease the number of teams to 150 by the first of next month.

"We have it from a reliable source This will mean a return to the old

"There are a number of rumors afloat regarding this train, and other improvements contemplated by the company, none of which can be verified at the Boonville headquarters.

"It has been reported that the Mis souri Pacific will make the River route the main line from Kansas City to St. Louis and that the Sedalia shops will be moved to Jefferson City. It is also reported that a much better service is to be inaugurated on the branch from Boonville to Versailles.

"If the River route is to be the main line, it will mean much for Boonville

#### Enlarge Jeff. City Yards.

Here's an item from the Jefferson City Democrat of Monday. How the vards there are to be "widened" unless they are extended out into the river on the north or into the mountains on the south is a problem Here's the story from the Democrat

"The Missouri Pacific will within a few days begin work on enlarging the railroad yards at this place. The yards are to be widened and more tracks lad from Cole Junction to Ew

"J. P. Johnson, the well known contractor, has the contract for the work and is busy now hiring teams and men. The job will give work to quite a number of men and teams. When this work is finished there is no doubt about the removal of the passenger division from Sedalia to this city."

### Katy Shops Rumor at Parsons.

It is rumered that the Katy shops in this city will start up again on the first of the coming month on nine hours a day, and the workmen will work six days in the week, says the Parsons Eclipse of Monday.

The local officials are not giving out any information, but it is thought that the work the road is depending on from the Parsons shops cannot be gotten out at the present hours the forces are working, and that it is essential, in order to keep the engines in repair, to work more time.

It is stated from an unofficial source that the local officials are trying to get the hours increased in order or a visit at Kansas City. to get out the work that the road

### Reducing Accidents to Trainmen.

The New York Central railroad tolay put into effect the rules prescribed by the public service commission, which forbid any employe going upon the top of moving trains or lecomotive tenders, freight or passenger, upon any portion of its line within the electric zone, near New York city, or near low bridges.

The order is intended to reduce the number of accidents to trainmen.

san to note the persistence with which some misrepresent Kansas by stating that 'Prohibition is a failure' there. Not being able to get drams in this state like in some other states our old topers manage in one disgusting drunk. These are heralded far and near to prove that prohibition is a failure. Absolute prohibition of even making bogus money is a failure too in the same way. But Kansas under prohibition was never so happy and prosperous as now. We have no places in which to 'blow in' our wages as they do in other states, and as a result it is placed in our banks. The deposits in Kansas banks average \$145.00 per capita. In Illinois, where license prevails, and plenty of opportunities are offered men to blow in their wages in the saloon, the average per capita deposits in the banks amount to less than \$20. Kansas will continue to keep her 'prohibition' of the drink devil and her big bank deposits and the other states may have license and its consequent results. The big breweries and distilleries are badly whipped in Kansas and they know it." THE DRYS.

## DON'T KNOW KIDNAPERS

INMATE OF THE MISSOURI PEN ITENTIARY SAYS HE IS "A GOOD MAN."

#### FRANK A. MINOR VERY CLOSE MOUTHED

Boyle Is Held on a Bond of \$25,000 for the Whitla Kidnaping Case -Alleged Wife Will Be Arraigned Today.

Jefferson City, Mo., March 30.-Chief of Police Koehler, of Cleveland, O., is still trying to discover whether there is any relationship between the Frank A. Minor, who is serving a twoyear term for forgery, and Mrs. Boyle, who is implicated in the kidnaping of Willie Whitla at Sharon, Pa. Minor absolutely refuses to give any information, even regarding matters that are known at the penitentiar.

For instance, he denied that he had received any letters from Mrs. Boyle, although only a week prior to the kidnaping of the child, as the prison officials now recall the circumstance, he got a letter from a Mrs. Boyle, dated Sharon, Pa., in which it said, among other things, that it was so dull there she thought she would die unless something turned up.

Minor says he was born and reared in Chicago. He lived in St. Louis for a time and says he was a bartender, but declined to state in what part of the city he was employed. "I suppose the newspapers will dis-

FARMERS ARE BATTLING FOR IT IN NEW YORK TO SAVE THE CROPS.

CLAIM NATION'S WEALTH IS AT STAKE

Feather Dealers Alone Would Leave Crop Guards Defenseless-The Work of the National Audubon Societies.

New York, March 30. - Opposed solely by a designing band of Broadway feather dealers, the farming forces of the entire state are today fighting a desperate battle for a law which will fully protect the wild birds that they know can alone save their crops from insect pests.

Headed by the National Association of Audubon societies and the state Grange, with a membership of 83,000 working farmers, every agricultural interest in the state is lined up to demand such protective measures to prevent the butchery of the insecteating and non-game birds as have begun to benefit the farm lands of Iowa, Massachusetts, Michigan, Louisiana, South Carolina and West Vir-

Unless the professional traders in the scalps of these slaughtered songsters are now made to respect the economic value of their prey, It is declared, the orchardists and agriculturists of the whole country will soon suffer by the increase of every forus of insect plague.

Declaring that the valuable bird re o'clock, says Menday's Jefferson City sources of the whole American people are at stake on the principle of He was 65 years of age, and until this battle of the New York farmers recently was pastor at Loose Creek, against the commercial feather hunt-Osage county. With the insect-eating birds it is also planned to shield the snowy ow!. which is known to consume the hords of meadow mice, whose depredations have cost the orchardists of the country millions of dollars.

"This battel for the proper protection of insect-eating birds will have its effect upon the whole country." said William Dutcher, president of the National Association of Audubon societies, at its headquarters, 141 Broadway, today.

"More than \$1,000,000,000 has been proven by the government to have been lost to the farmers of this land last year through the depredations of insect pests. We want to determine it this vast loss to the nation is not to be considered rather than the selfish interests of the few dealers in the plumage of the very birds that destroy these insects.

"It is high time for the farmers, orchardists, ranchmen and planters of the country to assert themselves in this matter, as the agriculturists are doing in this state. We feel that we can count upon the support of every patriotic American to help us in the ation's valuable bird resources."

the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acrid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acrid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acrid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. #### Notice, Live Stock Owners.

When you contemplate employing a veterinarian, remember that the better the qualifications of the man you employ the less your chances for loss in proportion. Walter Warren has been practicing in Sedalia for over three years and desires that you make inquiry about his work. He is the only graduated veterinarian located in Pettis county that does a general practice. When you have a valuable animal that needs ttention you cannot afford to employ any but the best. If you desire to consult him call at his residence, 1021 South Kentucky street. Phone 246, or at Harding's barn, 218 South Osage.
